Celebrating the best in UK manufacturing and engineering excellence and innovation

About M&E Week

Nineteen Group is pleased to announce the launch of Manufacturing & Engineering Week, taking place at the NEC Birmingham from 6-10 June 2022.

Featuring a dynamic, interactive series of digital and all-new live events over 5 days, M&E Week showcases end-to-end manufacturing and engineering solutions.

M&E Week will provide a programme of CPD accredited live panel discussions, interactive workshops and demonstrations plus a host of highly topical digital sessions imparting practical advice and know-how to contribute to personal and professional development.

Whatever your current design, engineering or manufacturing challenge, this is an incredible opportunity to connect with experts and leave armed with ideas and solutions to apply.

Round up and Key Takeaways

What makes M&E Week different?

Thousands of new products from hundreds of leading brands will be showcased, see all the UK's leading manufacturing & engineering suppliers in one place.

Timing: In a post-pandemic, post-Brexit world, manufacturing and engineering have never been more important to the UK economy. M&E Week is the perfect place for professionals to secure the right partners to keep them competitive and grow the UK sector.

Experienced team: 100+ years of focused engineering, design and manufacturing industry knowledge means that the team behind M&E Week understand what is important to the sector to help you achieve optimum results.

Industry advisory council: to help steer our content programme and direction, making sure that the event benefits all participating companies equally. See the members on page 10.

Location: with easy access to the UK's motorway network, the NEC Birmingham is the recognised central location for a National show.

Scale: Dedicated shows providing more educational content than ever seen before. Working with key stake holders in government, trade bodies and industry, the 4 events outlined below alongside other engineering and manufacturing shows at the same venue on the same days will deliver the widest level of content, best practice and business engagement for the UK's industrial sector.

design
engineering expo engineering expo manufacturing expo maintec

Unrivalled support: we are working closely with MAKE UK, IMECHE, IED and many other key association and media partners who bring a wealth of expertise to cover the complete manufacturing and engineering sector.

Partners include:

Live Events

manufacturing expo
NEC BIRMINGHAM | 8-9 JUNE 2022

The future of manufacturing

Continuous improvement has always been at the heart of manufacturing. Manufacturing Expo will bring together the latest innovations, best practice, and business excellence.

The free to attend, 2-day event that has been created specifically for manufacturing process and management professionals to keep up to date and discover the technologies and equipment to ensure the efficient running of the manufacturing site.

From site management and legislation through to maintenance, materials handling and streamlining, attendees will have the opportunity to hear from industry leaders and be inspired, attend how to sessions leaving with practical solutions to apply and discover new supplier connections to improve productivity, cut costs, streamline and be more competitive.

Topics covered include:

- Digital transformation
- Skills development
- Investment
- Exports
- Advanced manufacturing
- Future energy and storage
- People and productivity
- Health & safety
- Green manufacturing

Premier Partner

www.manufacturingexpo.co.uk

Meet thousands of UK manufacturing decision makers

Products & services of interest to visitors:

- Additive manufacturing
- Artificial intelligence (AI)
- Cyber security
- Data management
- Digital manufacturing
- Energy & recycling
- Enterprise resource planning (ERP)
- Finance and business support services
- Health & safety
- HR support and services
- Industry 4.0 and digital transformation
- Lean manufacturing
- Manufacturing consultancy
- Manufacturing business support services
- Materials handling and factory operations
- Overseas trade and exports
- Machinery and plant equipment
- Software and IT
- Training
- Production engineering solutions
- Robotics & automation
- Logistics
- Sustainability
- Virtual & augmented reality
- Warehousing

Who you will meet:

The widest cross section of manufacturing leaders and their senior management teams, looking to drive growth, improve productivity, cut costs, streamline processes and be more competitive.

Attendees will be responsible for:

- Manufacturing leadership and strategy
- Factory operations and continuous improvement
- Manufacturing management and production
- Health & safety
- People development, skills, and training

design NEC BIRMINGHAM | 8-9 JUNE 2022
engineering
expo

The future of design engineering

Design Engineering Expo, is the dedicated 2-day free to attend event for future-thinking design engineers (of all levels) to meet, share ideas, source innovative solutions and be inspired.

It showcases leading-edge innovation together with the latest advances allowing design engineers to speak directly with those who are breaking engineering boundaries. Here, the UK's design engineering community can connect directly with leading suppliers from design services, electronics, embedded design through to testing and measuring to drive efficiencies and propel the future of design engineering in the UK.

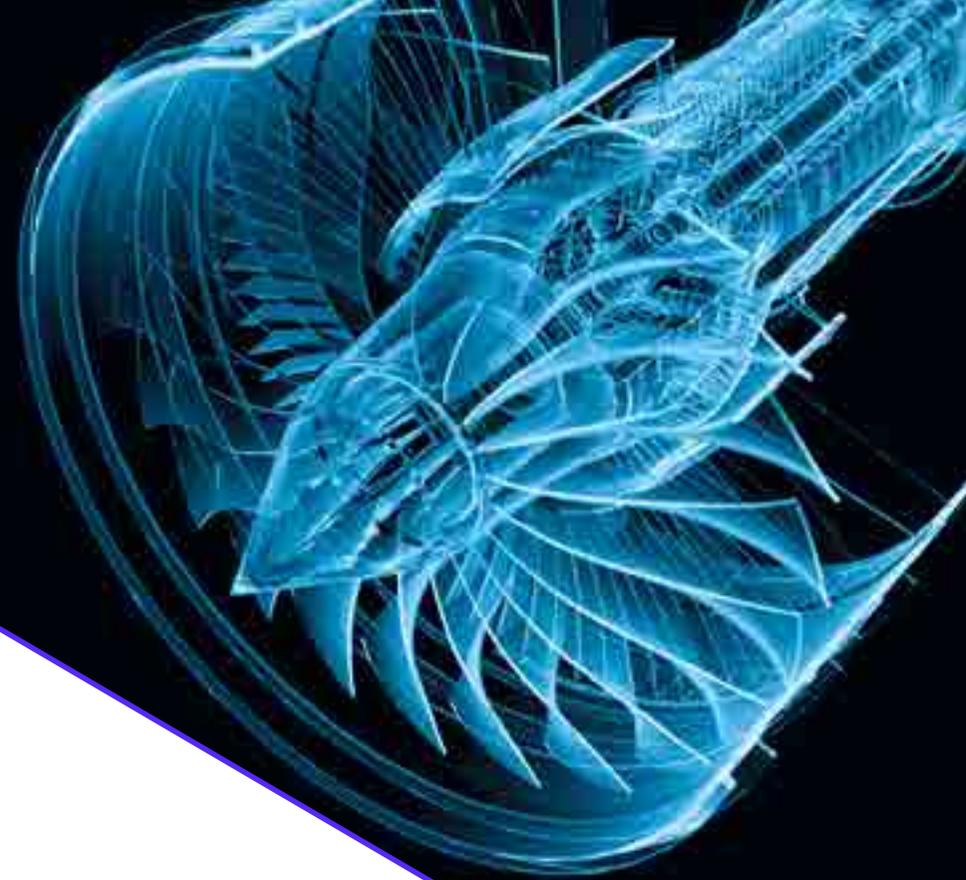

Showcasing:

- Design innovation
- Design engineering
- Mechanical design
- Mechatronic design
- Electronic design
- Embedded design
- Product design
- Industrial design

Premier Partner

www.designengineeringexpo.co.uk

Meet thousands of design engineers
from OEMs large and small

Who should exhibit:

- 3d printing & additive manufacturing
- Bearing & linear systems
- Automation
- Cables & connectors
- CAD / CAM /CAE
- Communications hardware, software
- Cases and enclosures
- Design consultancy
- Displays and LEDs
- Design services
- Drives & controls systems
- Design software
- Design hardware
- Electronics
- Embedded systems
- Electromechanical products
- Electrical products
- Electronic components
- Fasteners, adhesives & joining
- Hydraulics & pneumatics
- Laser marking
- Mechanical components
- Motion control
- Motors
- Materials (eg: plastics, composites, metals, ceramics)
- Passive components
- PCBs
- Printable electronics
- Power (batteries, power supplies & converters)
- Power transmission
- RF & microwave
- Robotics & cobots
- Sensors
- Semiconductors
- Switches & relays
- Test and measurement
- Thermal management

Who you will meet:

The widest cross-section of design engineers from directors to engineering managers and engineers from OEMs large and small looking to drive efficiencies and optimise future strategy.

Job roles include:

- Head of Design
- Technical Director/
Engineer
- R&D Director
- Design Office Manager
- Engineering Manager
- Chief Engineer
- Design Engineer
- Electrical Engineer
- Electronic Design Engineer
- Product Designer
- Industrial Design Engineer
- Mechanical Design
Engineer
- Materials Engineer
- Product Engineer
- R&D Engineer
- Software Engineer
- Systems Engineer
- Test Engineer

Live Events Cont.

engineering
NEC BIRMINGHAM | 8-9 JUNE 2022 **expo**

The future of engineering

Engineering Expo is a new 2-day free to attend national event staged exclusively for engineering professionals. It showcases next generation engineering and tech solutions from Britain's best suppliers across the entire engineering supply chain.

Whether in defence, food, medical, automotive, aerospace, transport, whatever the engineering sector, Engineering Expo will provide the UK's engineering community with practical advice to reduce costs, streamline and optimise future engineering.

From R&D, design, materials, testing and measurement, through to manufacturing and production, attendees will have the opportunity to hear inspiring keynotes packed with invaluable content and meet suppliers driving the industry forward.

Sectors from which visitors will be attending:

- Aerospace
- Automotive
- Consumer electronics
- Defence
- Food and beverage
- Medical
- Motorsport
- Oil & gas
- Energy & renewables
- Pharmaceutical
- Print and packaging
- Rail
- Space
- FMCG

Premier Partner

www.engineeringexpo.co.uk

Meet thousands of engineering buyers and specifiers

Who should exhibit:

- Automation and motion control
- Electrical / electronic components
- Energy management
- Engineering software
- Engineering equipment servicing and repair
- Finishing, coatings and surface engineering
- Gas and fluid handling
- Hand tools and equipment
- Industrial communications & networking
- Instrumentation
- Laser marking
- Machine building and system integration
- Machine control & monitoring
- Machine learning and artificial intelligence
- Machinery safety
- Materials
- Measurement & inspection
- Moulding
- Quality control
- Testing
- Metrology
- Panel Building, switchgear
- Scanning and imaging equipment
- Vision systems

Who you will meet:

Thousands of future thinking engineering professionals from all tiers of the supply chain looking to reduce costs, streamline and optimise future engineering.

Job roles include:

- Engineering manager
- Electronics engineer
- Design and R&D engineer
- Programmer
- Software Engineer
- Structural Engineer
- Mechatronic engineer
- Mechanical engineer
- Production engineer
- Operations engineer
- Purchasing
- Inspection
- Quality assurance

maintec

THE UK'S PREMIER MAINTENANCE ENGINEERING EVENT
11-13 JUNE 2022
BIRMINGHAM NEC

www.maintec.co.uk

For Industrial, Buildings & Supply Chain Maintenance Engineering

Maintec is the longest standing exhibition dedicated to the maintenance, reliability and asset management industry.

Throughout its 40-year history, the event has continued to meet the needs of the maintenance engineer and provides an opportunity to source the very latest technology available on the market.

Visitors attend from the following sectors:

Industrial Maintenance:

- Automotive
- Chemical/Pharmaceutical
- Food & Beverage (inc. Brewing) & Tobacco
- Oil & Gas (Petrochem)
- Aviation, Aerospace & Defence Manufacturing
- Civil Engineering & Construction
- Mechanical Engineering
- Pulp & Paper & Paper Products
- Utilities
- Mining & Quarrying
- Rubber & Plastics
- Retail
- Metals & Metal Manufacturing
- Clothing Manufacturing
- Armed Forces (Servicing)

Buildings Maintenance:

- Total Facilities Management
- Health (Hospitals etc)
- Construction
- Retail
- Factories/Plants
- Utilities
- Government Buildings
- Education
- Supermarkets

Supply Chain Maintenance:

- Airports
- Rail
- Ports & Marine
- Bus & Coach
- Warehousing, Distribution & Freight
- Roads

Event Partners

Nanoprecise
Precision with Purpose

safetykleen
International

Meet thousands of serious maintenance buyers

**Who should exhibit:
Manufacturers and suppliers of maintenance technology including:**

- Air Curtains
- Air Filtration
- Asset Management
- Ballscrew / Ballscrew repair
- Bearings
- Boilers / Burners
- Building Maintenance
- Calibration
- Chains
- Component Cleaning / Drying
- Compressed Air
- Condition Monitoring
- Consultancy
- Corrosion Prevention
- Data Analysers / Loggers
- Degreasers
- Dry Ice Cleaning
- Electric Motors
- Electrical Maintenance
- Electrical Services
- Energy Management
- Flooring Solutions
- Food Safety Lubricants
- Gaskets / Seals
- Generators
- Hire / Rental of Equipment
- Hoses and Hose & Cable Reels
- HVAC
- Hydraulic Maintenance Equipment
- Industrial Doors & Shutters
- Instruments
- Laser Alignment
- Leak Detection
- Lubrication
- Maintenance Soft ware
- Maintenance Strategy
- Oil Absorbents
- Oil Filtration
- Outsourcing
- Pipework Components
- Plant Maintenance
- Power Generators
- Power Transmission
- Predictive / Preventive Maintenance
- Production Equipment
- Pumps / Pump Repair
- Sensors
- Servicing
- Soft ware
- Spindles & Spindle repair
- Springs & Coils
- Surface Treatment and Coating
- Temperature Measurement
- Test & Measurement
- Thermal Imaging
- Thermographic Services / Equipment
- Tightening & Tensioning Equipment
- Tool Post Grinders
- Tools & Workshop Equipment
- Training
- Ultrasonic Detectors
- Valves
- Vibration Analysis
- Visual Planning
- Wipes

Who you will meet:

- Asset Manager
- Condition Monitoring Engineer
- Service Engineer
- Site Manager
- Maintenance Manager/ Director
- Operations Manager/ Director
- Reliability Engineer/ Manager
- Works Engineering Manager
- Engineering Manager/ Director
- Electrical Maintenance Engineer
- Vehicle Mechanic
- Chief Engineer
- Managing Director
- Facilities Manager/ Director
- Assurance Manager/ Director
- GM - Property
- Process Engineer
- Building Manager
- Installation Manager/ Director
- Continuous Improvement Manager
- Head of Technical Services
- Standards Specialist
- Head of Service
- Test Support Engineer
- Plant Manager/Director
- Quality Manager
- Engineering Planner
- Knowledge Transfer Manager
- H & S Officer
- Risk & Compliance Manager

Advisory board

We are delighted to be working with industry leaders to focus our content programme and direction, making sure that the event has the highest level of quality and truly benefits the participating companies.

Get Involved

Sponsor

Elevate your brand and align your company with inspiring thought leaders through a wide range of speaking and branding options including:

- Headline sponsor
- Workshop sponsor
- Lanyard sponsor
- Wi-fi sponsor
- Drinks reception sponsor
- Carrier bag sponsor and more

Partner

If you would like to become a partner and support the launch of our shows please get in touch.

Attend

FREE TO ATTEND

M&E Week is completely free to attend and a visitor pass provides access to all co-located events taking place across the 5 days. Online registration is not open yet but please register your interest now at:

www.mandeweek.co.uk/register-your-interest

Speak

M&E Week will host an unrivalled line up of inspiring leaders and innovators pushing the boundaries of engineering and manufacturing. They'll explore the latest success stories, debate current challenges and offer practical how-to sessions to challenge thinking and provide take away solutions to improve process and strategy.

Want to speak? Please get in touch - enquiries@mandeweek.co.uk

Exhibit and Stand package

Putting your brand in front of your potential customers at M&E Week couldn't be easier and we have a range of stands to suit every budget. Take an exhibition stand to raise brand awareness and generate new sales leads with thousands of manufacturing and engineering decision makers.

Space - £379 per square metre +VAT

Shell - £399 per square metre +VAT

Data and Marketing Package - £399+VAT

Media partners

Manufacturing Expo has a huge media partner programme, ensuring unprecedented reach across the sector, making sure we connect you with your audience.

If your media business would like to become a partner contact enquires@mandeweek.co.uk

There has never been a more important time for our sector to pull together and to work together, to create a shared agenda, help promote and encourage manufacturing and engineering innovation, and see our sectors grow and Manufacturing and Engineering Week will do exactly that. I am delighted to be part of the M&E Week Advisory Board and that MAKE UK are a partner for this groundbreaking event.”

Stephen Phipson, CBE, Chief Executive, MAKE UK

Design doesn't stop – it's dynamic, forthright and exciting, and the IED is supporting the launch of the Design Engineering Expo to help showcase all of these elements and the outstanding work of the design community now and in the future.”

Libby Meyrick, Chief Executive at Institution of Engineering Designers
